# TERZIERE DI PONENTE

## Chianti Classico

DOCG

The *complex harmonies* of Terziere di Ponente owe their pronounced expressiveness to the vineyards along the southern slope of Castellina in Chianti. Here, temperatures gradually increase, compared to the other two Terzieri, resulting in wines of a warm and mature character. With its *granitic character*, Chianti Classico of these lands displays an *unparalleled elegance* that reflects its nature in the continuous tension between its bold soul and its *sublime aroma*.
